

# EXPLORE CONSOLE WITH QUICKNAV DIAL

ELEVATION SERIES

## DESIGN AND CONNECTION

A sleek, contemporary design combined with Wi-Fi connection and Bluetooth® functionality to create a console that enhances any facility.

The Explore™ Console adds a sleek and easy-to-use option to premium Elevation Series cardio equipment.

**QUICKNAV™ DIAL**  
Intuitive turn and push-button functionality offers an appealing way for exercisers to interact with the console.

**VIVID LCD**  
7" screen allows for easy workout set up and provides detailed information during a workout.

FEATURED: Explore Console for Treadmill

For Facilities

Through LFconnect.com, facilities are provided with valuable insight into equipment usage and the habits of exercisers. This information can be used to help guide business decisions, retain members and improve the bottom line.

For Exercisers

Through Wi-Fi and Bluetooth, it is easy for exercisers to track their workout with the LFconnect app. It keeps them motivated, which keeps them coming back.
