## LFCONNECT DIGITAL PLATFORM

Discover SE3 consoles are an essential piece of the ecosystem called the LFconnect Digital Platform. Our solutions include proactive service, statistics, software updates, compatibility with fitness apps and wearables, and the ability to customize how your exercisers interact with the facility. These assets work seamlessly together to create a consistently delightful experience for each customer.

## DISCOVER SE3 CONSOLE

The Discover SE3 tablet console is built on insights provided by facilities and exercisers about what makes a consistently captivating experience. Intuitive interaction, appealing layouts and a host of other digital advances, like integrated streaming video services, create engagement for any exerciser.

*LifeFitness*

## DASHBOARD DESIGN

The dashboard puts everything at an exerciser's fingertips including features that make workouts memorable and enhance exerciser engagement.

The dashboard makes it easier to discover all the options available to exercisers during workouts. From tracking and progress to added entertainment and a sleek, modern aesthetic—the Discover SE3 console builds on what exercisers expect from their facilities.

## ENTERTAINMENT APPS

We enhanced the most used features of our consoles to help exercisers stay engaged. By enabling user-driven content to each exerciser, we're personalizing the way people interact with the Discover SE3 console. Featuring streaming video and audio services like Netflix™, Hulu™ and Pandora® Radio, these consoles are transforming the way facilities think about entertainment.

## COURSES

Discover SE3 console offers beautiful Lifescape™ courses and RunSocial™, which allows exercisers to run with friends or other exercisers anywhere in the world in real time.

## EASY LOGIN PROCESS

Proximity Bluetooth® and NFC login make it easy for exercisers to explore the benefits of connecting to the console. Better tracking, workout history and data, and GPS workouts are all available through the LFconnect app.

## BLUETOOTH®

Being connected quickly and easily is a necessity in the digital age. Exercisers need a workout facility that offers an intuitive connected experience. Exercisers can easily connect their headphones, heart rate devices and related Bluetooth enabled devices.

*LifeFitness*

## HOME SCREENS

Home screens are an important point of contact with exercisers for any facility. They can be customized to promote facility programs and services, boost brand loyalty, and keep exercisers up to date with news and events.
