

UPRIGHT LIFECYCLE EXERCISE BIKE WITH DISCOVER SI OR DISCOVER SI-TV CONSOLE

Where your digital life meets your workout experience. The third generation of touch screen consoles redefines the workout experience with the most advanced technology. The 10" integrated LCD touch screen features an abundance of entertainment options, enhanced interaction, Internet connectivity and much more.

FEATURES

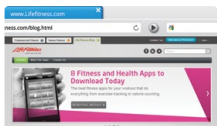

> 10" SURFACE CAPACITIVE LCD TOUCH SCREEN WITH OPTIONAL INTEGRATED TV

With a swipe of a finger, navigate seamlessly between crisp, clear screens to choose the entertainment and workouts you want. (Integrated TV available with Discover SI-TV console.)

> APPLE® AND ANDROID™ COMPATIBLE

Connect, manage playlists, watch videos and power your Android and Apple device, including your iPod®, iPhone® or iPad®

> INTERNET CONNECTIVITY

Visit a website or play a game. Easily choose your favorite websites through your LFCONNECT account, and they will be instantly available when you log in. Available with Ethernet or Wireless connectivity.

> LIFESCAPE INTERACTIVE COURSES

Take high-definition hikes, runs and bikes through famous locations around the world. The integrated machine controls speed as the exerciser runs faster and matches the resistance to the varying terrains.

> LFCONNECT™ / LFCONNECT APP

Complementary solution that allows exercisers to choose equipment settings and track workout results to meet their goals, while also providing facility owners easy asset management and product customization capabilities. LFCONNECT is accessible via its website or app.

To create an account, go to LFCONNECT.com.

FACILITY FEATURES*

Asset Management:

- Product usage statistics
- Software updates

Equipment Customization:

- Custom workouts by facility and trainer
- Attract screen, logo and message customization

- Internet favorites

Workout Creation:

- Workout calendar
- Workout customization
- Workout Library

Workout Tracking:

- Track and share progress

Social Interaction:

- Create workouts and track progress with peers and personal trainers

All features are Apple and Android compatible.

UPRIGHT LIFECYCLE EXERCISE BIKE

WITH DISCOVER SI OR DISCOVER SI-TV CONSOLE

Whether your users are looking for a great workout, training for a race or recovering from surgery, the Elevation Series Upright Lifecycle® Exercise Bike will take them to the fitness level they desire. The Upright Lifecycle Exercise Bike delivers an exceptional fitness experience with its easily adjustable pedal strap and resistance controls at your fingertips. Built with more than 30 years of research, development and user-based tests, the ergonomically-designed exercise bike will motivate your exercisers to keep their workout routines in your facility.

PERFORMANCE FEATURES

- > **ADVANCED CONSOLE TECHNOLOGY**
Engage the senses with Internet connectivity, product personalization through Lfconnect, Lifescape Interactive Courses, video-watching capabilities and iPod®, iPhone®, iPad® and Android® Smartphone integration.
- > **COMFORT CURVE™ SEAT WITH EASY ADJUSTMENTS**
Convex shape and swept-back seat design provide superior comfort. Ratchet seat adjustment makes it easy for users to adjust the seat height, even while in a seated position.
- > **SEAT POSITIONING**
Precisely angled seat post allows users to adjust the seat height for correct Knee Over Pedal Spindle (KOPS) position to ensure proper lower-body mechanics, which reduces pressure on knees and enhances rider comfort. The Discover SI model has an optional XXL seat post and handlebars to accommodate users up to 7' tall.
- > **AT-YOUR-FINGERTIPS RESISTANCE CONTROLS**
Allows users to easily adjust workout intensity on the handlebars.

HIGHLIGHTED FEATURE

PEDAL STRAP

Adjustable ski boot-style pedal strap enable users to easily get on the machine and begin working out.

UPRIGHT LIFECYCLE EXERCISE BIKE DETAILS

- Easily adjustable ski boot-style pedal strap
- At-your-fingertips resistance controls
- Removable cupholders
- Motivating workout variety
- Patented Lifepulse™ digital heart rate monitoring

Greener with EVERY MOVE

Certain components of our cardio equipment are no longer painted during the manufacturing process, which reduces our carbon footprint. This initiative also lowers the amount of Volatile Organic Compounds (VOCs) released into the air as pollutants.
