# THE TOTAL BODY WORKOUT THAT IGNORES LIMITS

## BECAUSE SUCCESS STARTS WITH ACCESS

### KEISER REHAB M7WTBT

EXPAND YOUR OFFERING TO MEET THE DEMAND FOR SPECIALIZED REHAB AND PHYSIOTHERAPY

The Keiser M7WTBT (Wheelchair-accessible Total Body Trainer) is perfect for cardiac rehabilitation, senior living facilities and physical therapy programs, providing a low impact workout for any user.

### BETTER MACHINE. BETTER SCIENCE.

- Works with a wheelchair or standard chair
- Keiser Magnetic Resistance for ultra smooth movement
- Natural functional movement pattern
- Low starting resistance
- Dependent upper and lower cranks to enable passive assistance
- Low impact workout that delivers accurate and measurable results
- Only ergometer in this class that features measurable parameters, such as METS, Watts, Steps Per Minute and Distance
- Easily transportable and features the smallest footprint in its class, taking up less space for more functional floor plans
