

DISCOVER SE3 CONSOLE

ELEVATION SERIES

The Discover SE3 and SE3 HD tablet consoles are built on insights provided by facilities and exercisers about what makes a consistently captivating experience. Intuitive interaction, appealing layouts and a host of other digital advances, like integrated streaming video services, create engagement for any exerciser.

DISCOVER SE3 HD

Also available in High-Definition.

DASHBOARD DESIGN

The contemporary dashboard makes it easy to discover everything from entertainment apps and courses to tracking and progress.

ENTERTAINMENT APPS

Featuring streaming video and audio including Netflix™, Hulu™ and Pandora® Radio, we enhanced the most used features of our consoles to help exercisers stay engaged.

COURSES

Featuring beautiful Lifescape™ courses and newly added RunSocial™, which allows exercisers to compete anywhere, anytime.

EASY LOGIN PROCESS

Proximity Bluetooth® and NFC login make the connection process easy, which encourages exercisers to explore the benefits of signing into an account.

LFconnect
digital platform

A suite of services that creates a memorable brand experience and makes it easier to manage a facility.

Digital Service

The LFconnect Protect team monitors how your connected cardio equipment is running and proactively contacts you if there is a problem, leaving you free to focus on other areas of your business.

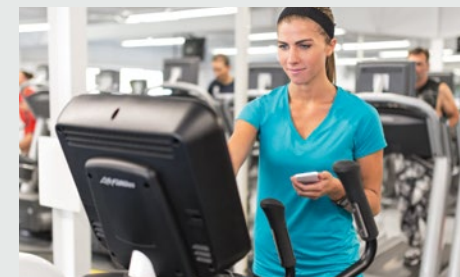

Facility Data

See when and where people are working out on connected equipment, then create free flowing paths within your facility that complement your equipment mix and layout.

Tailored Experience

Customize home screens and align your facility app with your brand. Life Fitness allows you to improve the overall experience of your brand by sending communications that look like they came from you—not us.

Tech Integration

Create a cohesive fitness experience by allowing exercisers to easily interact with the fitness apps and wearables the way they're used to.
