

BRIDGE

HD ATHLETIC

HD Athletic Bridge is a rack system engineered to span above a training area. Build a powerful flex space for Olympic lifting, body weight training and a variety of other dynamic group programs for everyone from beginners to elite athletes.

- Uprights are 9'-9" allowing for overhead Olympic lifting and clear space for group training
- Add storage to carry more accessories for training variety
- Olympic stations are connected by bridges available in lengths between 12' and 20' in 1' increments
- Your choice of 4 high-wear colors in three different zones (uprights, bridge, xmembers) allows you to create the perfect look for your facility
- 7 gauge steel uprights for strength and rigidity
- Vary pull-up stations using arc bar, ball grips and neutral grip options for the square.

Olympic stations can be set up on the inside or outside of Bridge to optimize your training area.

ZONE 1 (96" x 120"): Olympic training inside the Bridge

ZONE 2 (bridge length" x 84"): Body weight strap training outside of the Bridge

ZONE 3 (bridge length" x 84"): Body weight strap training inside of the Bridge

ZONE 4 (96" x 120"): Olympic training outside of the Bridge

STANDARD CONFIGURATIONS

SINGLE*

FOOT PRINT (L x W x H): 205-301" x 57" x 116.6"

DOUBLE

FOOT PRINT (L x W x H): 205-301" x 177" x 116.6"

TRIPLE

FOOT PRINT (L x W x H): 205-301" x 297" x 116.6"
