

ELLIPTICAL CROSS-TRAINER

INTEGRITY SERIES

DURABLE AND SLEEK

The Integrity Series Elliptical Cross-Trainer has been designed to offer a natural feeling motion for a wide range of exercisers. Elevated aesthetics make it more inviting, but it stays true to the workhorse durability that Integrity Series is known for.

NATURAL STRIDE

The 20" (50.8 cm) stride has a smooth and fluid motion developed from years of research. A large area of knee clearance makes it comfortable for tall exercisers.

VERSATILE MULTI-GRIP HANDLES

Multi-grip design lets exercisers choose a comfortable hand position. The D base offers integrated resistance controls that make it easy to change a workout on the fly.

OVERSIZED FLEXFORM PEDALS

The large 15 in (38 cm) FlexForm™ crowned pedal shape helps reduce numb foot. The non-slip surface of the pedals is easy to clean (available on D Base only).

CONNECTED CARDIO

Integrity Series cardio can be connected to LFconnect for asset management, facility usage data, preventive maintenance, LFconnect Protect and more, so you get the most out of your equipment.
