COLOR TABLE AND SPECIFICATIONS

57 – 62

A black and white photograph showing a person's arm and hand interacting with a Hammer Strength machine. The machine is a large, dark-colored piece of gym equipment with a prominent horizontal bar and a vertical support structure. The person's hand is resting on the horizontal bar, and their arm is extended upwards. The background is dark and out of focus, showing some gym equipment and a ceiling light fixture.

BUILT TO A HIGHER STANDARD

The reputation of Hammer Strength equipment has been built with steel, sweat and dedication.

Hammer Strength is the No. 1 option for elite athletes because it can take the pounding they dish out, and, most importantly, it's designed to provide results.

We are committed to turning steel into world-class strength equipment. We're also committed to world-renowned durability.

That's why Hammer Strength equipment is tested to exceed industry standards, ensuring that it can hold up to years of even the most intense training programs.

HAMMER STRENGTH®

A person in a dark tank top and leggings is shown from the waist up, clapping their hands. A large cloud of white dust or chalk is being thrown into the air, partially obscuring the person's hands and the background. The background is dark with some gym equipment visible. The lighting is dramatic, highlighting the person's arms and the dust cloud.

HAMMER STRENGTH STARTS WITH HERITAGE

Strength training changed when Gary Jones created Hammer Strength in 1989. With ingenuity, and input from the Cincinnati Bengals, he constructed machines with performance in mind—effective training tools that move the way the body does.

PLATE-LOADED

HAMMER STRENGTH IS BUILT ON THE PURE PERFORMANCE OF PLATE-LOADED STRENGTH EQUIPMENT

Independent natural paths of motion were revolutionary nearly three decades ago when Hammer Strength originated.

Plate-loaded equipment still employs these excellent biomechanics to create the ideal training tool for elite athletes and those who want to train like one.

More than 40 machines mean plenty of different ways to move iron against gravity.

A man with short, dark, curly hair is working out on a Hammer Strength machine. He is wearing a grey athletic shirt and black shorts. He is looking intently at the camera while holding the machine's handle. A large black weight plate is visible on the machine, with the words "HAMMER" and "STRENGTH" printed on it in white. The background is a dark, industrial-looking structure with rivets.
